EVERPURE WATER FILTER KIT

FULL KIT

REPLACEMENT FILTER

This is ideal for 2, 3 or 4 group espresso machines in busy cafes, and hi-flow applications. It contains a 4H Everpure 0.5 micron water filter that finely polishes water and reduces lime scale build-up. Includes pressure reducing valve and a shut-off valve. Mounted with an Everpure water filter bracket.

GRINDERS

MAZZER MINI

The best on demand grinder technology, with flat burs, stepless grind adjusting and 600g bean hopper. Perfect for grinding at home or for decaf in your cafe

ANFIM BEST CHROME

The perfect partner for the top end espresso machine like the VFA Torino or Compac Elite. The combination of strength and beauty makes this grinder a winner. It is designed for a modest work load so is perfect for home or small office use.

MAZZER SUPER JOLLY

The industry standard. With its stylish looks and robust construction, this flat burr grinder is superb for the 15 + Kg/week café. Its convenient features include a 1.2-Kg hopper, micrometrical (stepless) grind adjustment and a timer switch to shut off the grinder after one minute

MAZZER MAJOR

The industry standard. With its stylish looks and robust construction, this flat burr grinder is superb for the 25+ Kg/week café. Its convenient features include a 1.8-Kg hopper, micrometrical (stepless) grind adjustment and a timer switch to shut off the grinder after one minute.

MAZZER ROBUR

The mightiest of Mazzer grinders - this conical burr grinder is ideal for the 35+ Kg/week café. Its features include a 1.8-Kg hopper, micrometrical (stepless) grind adjustment and automatic grind switching to shut off the grinder once the doser is full. The imposing Robur is the perfect match for a 4 group espresso machine.

VFA VELOX

This is a mahlkonig grind on demand espresso grinder. Exact portioning, precision cutting and exceptionally quiet. This is the ultimate grinding experience.

MAHLKONIG GSS1

German made shop grinder. Perfect for the market or coffee retailer.

ENZO MINI MACHO GRINDER

The 'on-demand' conical burr grinder that can grind consistently finely for espresso, filter or plunger - but won't take up your precious bench space. When the portafilter handle is brought to the spout, it touches a lever and the grinding starts. As the ground coffee is dispensed directly into the filter basket, there is no waste. Continuous grinding into the removable grounds container is also an option.
